ABOUT VIJAYASH FOUNDATION

The Foundation was formed as an NGO and Trust in April 2015. During the time it educated and developed (Through coaching, Life Skills training, Counselling, Personality development classes) various students in different institutions. The foundation did various, pro bono, Life Skills, Motivational, Happiness training in Government schools, private schools, Children Homes, Skill Centres, ITIs, NGOs, Colleges, Professional Institutes, government offices and other organisations. Over 200 such sessions were conducted.

Objectives

- 1) To spread Mental Health awareness among society and remove the stigma attached to it. To popularize Mental Health discussions in the society, so as it become a natural discussion like we discuss any physical ailment in the body.
- 2) To provide expert counselling by qualified psychologists who also undergone spiritual training.
- 3) Life Skills Training to improve our mental health and be free of all psycho issues in the long run. It is very important to learn Life Skills e.g. learn to forgive, to forget, develop relationship, to make goals and achieve education and professional success.

Day One, November 06, 2017

Session

1. **Prof. H S Banyal, Vice-Chancellor, Abhilashi University**discoursed on the University faculties, students and their approaches. He also welcomed the resource persons and the team from "Vijayash Foundation". University is running different technical and other courses including diploma, degree, post graduation and PhD, and many students dreaming to require counselling for their health, wellness and metal status during the stress hours of their studies. In the above said context this workshop will help them to be happy and feel-good and support them to overcome stress.
2. **CS Deepak Jain (Founder, Vijayash Foundation):**Talk aboutMeditation and elaborated that it can produce a deep state of relaxation and a tranquil mind. During meditation, one can focus her/ his attention and eliminate the stream of jumbled thoughts

that may be crowding your mind and causing stress. This process may result in enhanced physical and emotional well-being.

3. **Ms. Anisha Dhingra:** Given the lesson of self-realization. She emphasizes that everything around you is incredible, if you're willing to look at it that way. Everything around you can be taken for granted if that's your perspective. But it really is about the frame that you choose to put around things. I mean, simply being alive is already insane. The odds are so stacked against you. Not only just being a human, but being a human at this moment in time. This moment in time, where breakthroughs in technology are happening at an unprecedented rate. Where breakthroughs in medical science are happening at an unprecedented rate. Where our ability to connect with people, to empathize with people all the way around the globe... All of the changes that have happened in technology, telecom, connectivity, health... everything.

4. **Ms. Diskit Chosdon:** Speak about how to control anxiety and unwanted thoughts. She told that the mind is the most powerful tool you have at your disposal. Once you understand what it can do, and you know how it works, it becomes easy to use this amazingly powerful tool for good. But before you get into the nitty-gritty of controlling the mind, you need to understand that you do not want to mess up the delicate balance of the mind. So if you want to know how to control your mind from unwanted thoughts, there are some things that you must do.

Day Two: November 07, 2017

There was an open discussion and mind relaxing activities and games along with laughter, clapping, OM chanting and yoga therapy.

- 1. Dr. Promila Abhilashi, Vice-Chancellor, Abhilashi University:** The event began by the welcome note for resource persons and all the participants of the conference. The VC of University elaborated that Career planning is a continuous process of thinking about our interests, values, skills and preferences, exploring the life, work and learning options available to you ensuring that your work fits with your personal circumstances.
- 1. Mr. Manoj Aggarwal, COE,Varav Biogenesis:** Mr. Manoj told that the interview is a vital step to obtaining a career position and often depends on your skills in marketing your potential. Do not miss out on a good position for which you are qualified due to a lack of preparation and practice. You need to be ready to answer questions about your career goals and background. You will also want to develop intelligent questions of your own to help you obtain the necessary information for making an informed decision. Furthermore, preparation helps build your self confidence in your interview skills and is the key to successful interviewing.
- 2. Mr. Pankaj Bansal, Managing Director, HM Steels:**He enlightened that Employability Skills are transferable skills needed by an individual to make them 'employable'. Along with good technical understanding and subject knowledge, employers often outline a set of skills that they want from an employee. These skills are what they believe will equip the employee to carry out their role to the best of their ability. Employability depends on your knowledge, skills and attitudes, how you use those assets, and how you present them to employers.
