**“ We should indulge in God  
remembrance every moment. ”**

**We** should always remember the formless God. We must never forget the presence of formless God. It is generally said that God remembrance is not mere recitation. Yes, that's true and we don't have to indulge in recitation. But we must feel his presence every moment. We are not bound by any particular time or place for God remembrance. But like when our mobile phones do not get any signals, we use land line phones to make a call, similarly, if one feels that he/she is lacking in '**Sumiran**' then one should sit with family members for '**Sumiran**'. Don't think that you were not told that earlier. In fact, it was not told but one should remain consciously aware about paying attention to '**Sumiran**' in any way so that our faith should remain firm and unwavering. God remembrance leads to large heartedness as well as broad-mindedness that saves us from unnecessary complications. '**Sumiran**' opens the door to progress.

## ABHILASHI UNIVERSITY - AN INTRODUCTION

Abhilashi University at Chail Chowk, Mandi is established by the Government of Himachal Pradesh vide Abhilashi University (Establishment & Regulation) Act, 2014'. Abhilashi University is a Government recognized University with a right to confer degrees as per Section 2(f) and 22(i) of the UGC Act, 1956. The University received **B+ Grade** from NAAC in its 1st Cycle. The campus of the University is located at Chail Chowk near Mandi (H.P) and surrounded by lush green fields, pine and oak forests thus becomes an ideal place for study in a clean health-oriented environment. The aforesaid was the forethought of the Abhilashi Educational Society selecting such a beautiful location for the University. There are a number of places worth visiting nearby the University such as Nachan Valley, Jecani Valley, Jarichil Valley, Balh Valley, Sundernagar and Mandi towns. One can also enjoy snowfall once a while during the winter season. The fresh and pollution free air of this region keeps the minds of the students active and help them to concentrate on their studies and beat the crowd.

The management of the University, Abhilashi Educational Society, is a pioneer in managing private educational institutions in the state of Himachal Pradesh. The foundation stone of the Society was laid by Late Sh. Tulsi Ram Abhilashi Ji on May 21, 2001.

The students and their parents have put faith in the quality education imparted by efficient and dedicated faculty of institutions managed by Abhilashi Educational Society for the last 24 years. The Society is presently running many educational institutions of basic and technical education in the region. It includes: Abhilashi College of Education at Nerchowk, Mandi established in 2003 and running D.El.Ed and B.Ed., Abhilashi College of Pharmacy, Nerchowk, Tehsil Balh, Distt. Mandi from 2006 and onwards admitting students for B. Pharmacy Degree Programme; Abhilashi P.G. Institute of Sciences at Nerchowk, Tehsil Balh, Distt. Mandi offering M.Sc. Courses in Chemistry and Botany, T.R. Abhilashi Memorial Institute of Engineering and Technology (TRAMIET) established in 2009 imparting education in the B. Tech., Diploma & ITI programmes in different disciplines of engineering and technology. Abhilashi College of Nursing at Tanda, P.O. Balh, Distt Mandi is imparting education in B.Sc. Nursing, GNM and Post-Basic B.Sc., M.Sc. Nursing courses. Keeping in view the requirement of people of Chailchowk and surrounding areas, Abhilashi Hospital has been established and is operational at Chailchowk since October, 2020.

### Vision

Excellence in professional and technical education through dedicated and innovative research.

### Our Mission

- To provide environment for achieving excellence in education.
- To create and generate conditions for quality education.
- To impart quality education through value-based & industry-based curriculum.
- To strengthen in humanistic, social and moral values.
- To plant education and qualities of leadership in minds of students for future development of the nation.

## CHANCELLOR'S MESSAGE

Education is the driving force for effecting change in a person, community, society, and nation. It breaks the barriers of caste, creed, ethnicity and religion by training the minds to think logically; envision, innovate, invent and discover methods for creating a harmonious and sustainable society with skills, positive mindset, knowledge and high values of life. Education being so important, therefore, the mission of the Abhilashi University is "To provide environment for achieving excellence in education through leadership-based, value-based & industry-based curriculum for the overall development of the minds of students for the future development of the nation in turn".

For any University, the structure of excellence lies in the transitional abilities of its faculties and its facilities. I am always in awe of the efforts that our academic board puts into developing the team of subject matter experts at Abhilashi University. My faculty colleagues understand our core vision of empowering our future generation to be ethically, morally and intellectually elite. They practice the art of teaching with a student centred and transformational approach. The excellent infrastructure at the University, both educational and extracurricular, demonstrates the importance of ambience in facilitating focused learning for our students.

The Abhilashi University is one of the leading Universities of north India which got approved by the 1st inspection Committee of the University Grants Commission within two years of its inception. Further, the University has the approval of University Grants Commission under section 2(f) and Section 22 of UGC Act, 1956 and is a member of AIU (Association of Indian Universities), Central Council of Indian Medicine, Pharmacy Council of India, Bar Council of India, Himachal Pradesh Para Veterinary Council and Indian Association of Physiotherapists. The University is also accredited by NAAC in year 2022 with B+ Grade in the 1st cycle of inspection. The Abhilashi University is well known for professional courses which have inherent and higher demand in Govt. as well as in private sector. Abhilashi University is also contributing in social upliftment of community by organizing medical health camps, blood donation camps, agriculture awareness and development programs, plantation drives, renewable and green energy projects, Unnat Bharat Abhiyan & NSS etc. It is my pleasure to extend warm welcome to all the prospective and aspiring students of Abhilashi University and other Institutions of Abhilashi Group. I honestly assure that the learnings from Abhilashi University/ Abhilashi Group of Institutions will certainly cherish the creative potential of students to achieve success in their life and to provide a milestone for Nation Building.

**Dr. R. K. Abhilashi**

## PRO-CHANCELLOR'S MESSAGE

The fast changing world of tomorrow will be an existing and a challenging place to live, where only people who adopt themselves to the situation, keep face with upcoming technologies and take the ability to align their ideas, thoughts and way of working to changing situation will survive. At Abhilashi University we recognize this need to prepare the students for the challenges of the 21st century and to provide an atmosphere which will encourage them to become lifelong learners and to work in multi cultural, ever changing society. As education and knowledge are of paramount significance for the different sections of the society, therefore, the Abhilashi Educational Society has developed a hub of educational institutions in and around the Nerchowk town of Mandi District (H.P.). Majority of the institutions are situated in the rural area so that the students can get a serene, calm, pollution free academic environment for concentrating in their studies, innovating and becoming an asset to the society. The other reason for situating and developing the educational institutions in the rural area, is the pious mission of the Abhilashi Educational Society to improve the quality of life of the rural people by education, employment and other means of entrepreneurship such as opening hostels, paying guest houses, grocery shops, tea shops and other means of livelihood possible at their thresholds.

The vision of the Abhilashi University is "Excellence in professional and technical education through dedication and innovative research". Thus to achieve this mission, the University has adopted a very high standard of education which gets reflected through the recognition of the University by the University Grant Commission Inspection Committee and AICTE Expert Committee and the ratification of the same by the UGC within a period of two years of the establishment of the University. Further, the standard of the University has also been applauded by the other bodies such as PCI, BCI, NCISM and H.P. State Para Veterinary Council. It is my pleasure to extend warm welcome to all the prospective and aspiring students of Abhilashi University and other Institutions of Abhilashi Group and I honestly assure them that they shall shine in their career and beat the crowd of this competitive world.

**Dr. L. K. Abhilashi**

## VICE-CHANCELLOR'S MESSAGE

Welcome to Abhilashi University at ChailChowk, District Mandi, Himachal Pradesh, a venture in higher education by Abhilashi Education Society. Abhilashi University is an institution which rears its students in their mission of literacy and education. University means centre of higher education. It nurtures the individual's ability to interpret, to distinguish between right and wrong, to enhance the appetite for curiosity and to discover the answer to hidden unsolved problems. Education is manifestation of perfection already present in man.

The main focus in learning should be to make the hidden ability of learner manifest. As Vivekananda said, what a man 'learns' is really what he 'discovers', by taking cover off the human soul, which is a mine of infinite knowledge. According to Vedanta philosophy, knowledge is inherent in human being, like a spark in a piece of flint, and all that is needed is the strike of suggestion to bring it out. Real education is that which enables one to stand on one's own legs. Education must be considered as a continuous and lifelong process. Teachers and designers of education system must always keep in mind the Vedanta idea that whatsoever good or bad impressions a mind carries, a human being is essentially pure and divine and repository of immense possibilities. Everyone should get equal opportunity to learn and grow irrespective of one's financial abilities. Discovery is the main focus of universities. Universities are to solve the unsolved issues, to answer the unanswered questions, to encourage the innovative and imaginative ideas, to nurture a state of mind that is flexible and alert and to educate the individuals about modesty and humanity. Abhilashi University is synonym with this.

We at Abhilashi University educate our students and prepare them for a life time of responsibility with dedication through creation of knowledge by learned and efficient faculty, well equipped laboratories and library. Abhilashi University is established with a vision to make quality higher education within reach to aspiring technocrats and to disseminate knowledge to them in their ability to be job providers instead of job seekers. I assure the young minds joining Abhilashi University that you will certainly achieve satisfaction in your academic pursuits to attain future endeavours. Academic environment is imperative to education of naive technocrats to excel in their skills and Abhilashi University is lighthouse, well-equipped to impart versatile training in disciplines to ensure maximum on campus placements of its graduates. My best wishes to students and parents who are associated with Abhilashi University.

**Prof. H.S. Banyal**

## REGISTRAR'S MESSAGE

Education is not about loading child's mind with information, but about making it capable of razor-sharp perception, capable of knowing life in its full depth and dimensions".

- *Sadguru*

While reading this beautiful and beautiful quote on Internet and I realized how relevant it is for all of us associated with the field of education, it may be children, parents and teachers. I think none of us at any point in the life can sit back and say, "There is nothing more to learn, I can relax with the comforting thought that the universe around me is an open book. I know it all."

Education is not just about the subjects that are learnt and taught in educational institutions and becoming educated is not only to go initially to school and then to college, gathering certificates and feeling proud of oneself but it is a lifelong exercise that can be unbelievably exciting if only we wish to jump onto the train of experience and take a trip to every conceivable place on the earth. Now we know that this cannot be done literally, so how do we manage it, first in school/college life and then as we go on through life's journey.

First, we all have to be on the same page, children, teachers and parents have to understand that education is not restricted to lessons taught in the class room from text books. I welcome you to Abhilashi University, an institution where we help you to shape your future and help you in achieving the destination of life which you want to achieve. Abhilashi University has 5 Faculties and 13 Schools conferring degrees and diplomas in 46 different courses. I assure you that at Abhilashi University we will not leave any stone unturned in making your dream come true. At last I will like to add a few words of Albert Einstein "Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand."

### School of Health Science

Diploma in Multi Purpose Health Worker and B.Sc. Medical Laboratory Technology Courses are aimed at training students in different aspects of medical care with a good scientific foundation. B.Sc. MLT students will be in a position to competently assist in Biochemistry, Pathology, Microbiology and Radiography Laboratories and Blood Bank in all types of health care delivery systems along with the basic knowledge and advanced training in latest technologies in laboratories and blood bank. These graduates will play an important role in determining the quality of health care provided. The diploma holders in MPIHW will provide basic health care at the grass root level.

School of Health Sciences has laboratories attached to various subject specialities to help the students to develop psychomotor skills which are very essential for the effective practice of Paramedical Sciences. The School has the best laboratories which provide excellent hands on training along with innovative modern clinical skills where students are trained on various physical skills related to various organ systems, preparing them for real patient encounters. Fully automated, advanced instruments and are monitored by strict quality control and quality assurance to conduct tests. The laboratory specialist can get excellent job opportunities in modern Multi Specialty Hospital in India and abroad in both Private and Government sectors.

### **Bachelor of Science in Medical Laboratory Technology (B.Sc. MLT)**

### School of Agriculture

**Prof. D.R. Thakur**  
Dean, Agriculture

Dr. D. R. Thakur has served many institutions but the main institution was CSKJHPKV, Palampur (H.P) where he has served for 27 years and superannuated from the post of Principal Scientist cum Head, Department of Agricultural Economics, Extension Education and Rural Sociology. During his tenure of service, he has gained wide experience in teaching, research, extension and administration in the field of agriculture. Dr. Thakur has published one book and more than 100 research and popular articles in reputed national and international journals, guided 5 PG students and completed 26 research projects on various aspects of agricultural economics.

Agriculture plays an important role in the life of mankind from early civilization. It gained modernization with the passage of time. Modern agricultural practices are increasingly turning out to be knowledge-based. School of Agriculture established in 2014 offers undergraduate and post graduate programmes in Agriculture. After going through common and elective courses in Agriculture during the degree programme, we have in the course curriculum an exposure of the students in complete rural settings where the students go and live along with farm families in the villages and have the first-hand experience of their living, agricultural practices, difficulties and expectations. Students are attached to an agriculture-based industry to acquaint themselves with post-harvest processing of agriculture produce and link agriculture production with industry. The students are also registered for opting for two modules for skill development and entrepreneurship.

The school has highly qualified teachers, well-equipped laboratories, classrooms and well laid out terraced student's farm representing typical hilly terrain. Occasional snowfall during the winter adds to the beauty of the university campus and places it at a location that is marginal to temperate as well as sub-tropical agro climatic conditions, thus enabling teaching and research under both the situations.

## School of Veterinary Sciences

The School of Veterinary Sciences of Abhilashi University was established in year 2016. This school is dedicated to provide better learning facilities to the students, to give better professionals to serve the society. From this academic session a new course i.e. Bachelor of Veterinary Sciences and Animal Husbandry (B.V.Sc.& A.H.) approved by Veterinary Council of India (VCI), H.P. State Govt., & HPPER is introduced. Abhilashi University is the first institute to start a Veterinary College with degree programme in the private sector in H.P. A Veterinary Pharmacist Training course is also a vital part of School of Veterinary Sciences. The college owns a well-established Livestock Farm Complex comprising of an elite Dairy herd, a Poultry farm, a Sheep farm/Goat farm and a Piggery unit. Multi-Specialty Veterinary Hospital caters to the need of large and small animal healthcare. Successful completion of B.V.Sc. & A.H. programme entitles the graduates to seek mandatory registration with HP State Veterinary Council/Veterinary Council of India as a Registered Veterinary Practitioner.

The School of Veterinary Sciences has well-furnished classrooms and tutorial rooms equipped with teaching tools for the effective delivery of lectures and tutorials as per the requirements. Library, livestock handling laboratory, practical pharmacy, diagnostic and surgical tools and instruments laboratories as per the educational program requirements and norms of statutory bodies are available in the school.

The School has computing resources along with LAN and Wi-Fi connectivity on the campus as well as in hostels and teachers residences.

### Objectives:

- School of Veterinary Science provides good educational facilities and a conducive environment for the students to become good veterinary pharmacist, entrepreneurs and responsible global citizens.
- Improvement in total productivity of livestock to improve socio-economic status of livestock entrepreneurs.
- To develop, update and standardise package of practices concerning feeding, management, reproduction and poultry production technology.

## Courses

### Bachelor of Veterinary Science and Animal Husbandry (B.V.Sc. & AH) \*

**Course Duration:** 5<sup>th</sup> years including 1-year Internship

**Seats:** 80

**Eligibility:** 50 % marks in 10+2 (PCB) and NEET UG Exam/AUCET 2024

## Extension Programme

---

### Agriculture

Extension education is a two-way process. The School of Agriculture actively involved in extension programme and the farmers of the region are educated about the latest technologies in Agriculture. In order to achieve this, farmers training camps are held in the villages, farmers day depicting the latest technologies are organized at the campus through exhibitions, live exhibits, lectures from experts and entertaining the questions from participating farmers. In the reciprocal process, the experts visit farmer fields to study their problems first hand. The students, as a part of their course curriculum, visit farmers in the rural areas in the villages and acquaint themselves with their problems. In addition, the students go on educational tours to neighboring Agricultural Universities, Research centers and modern farms to acquaint themselves about the latest developments in the field of Agricultural Education.

### Pharmacy

To facilitate the link between University and community various extension activities for the welfare of the society in large scale is regularly being conducted through its Pharmacy awareness programmes, providing knowledge on different medically important herbs and their uses and also provide platform in organizing regional and national level workshops, seminars, conferences, newsletters and symposia.

### Abhilashi Ayurvedic College and Research Institute

Abhilashi Ayurvedic College and Research Institute is also carrying out the extension of Ayurvedic knowledge to public of the area by adopting village under "Swatch Bharat Mission". Further, the public is also made aware regarding hygiene, sanitation, preventive and precautionary treatment. Furthermore, monthly health camps, blood donation camps and ksharsutra camps for treating the piles patients are also being organized.

### Entrepreneurship

Entrepreneurship is the activity of risk taking and deliberately allocating the resources to exploit opportunities in order to maximize the financial return. It is the process of risk taking and deal with uncertainty. In entrepreneurship we have to plan a good business model. The entrepreneurship leads to economic growth of the organization which is must for its sustainability.
